Education

Higher Professional Degree - Front-end Development

Noroff Education AS

2023 - 2025

- Excitedly delving into the realm of merging customer experience with system development, the program has significantly enriched my skills in design processes, interaction design, and programming. With a practical orientation that mirrors the dynamic needs of the industry, I've gained valuable insights into essential principles crucial for a frontend developer's success. The program's highlight was a final project exam, showcasing my growing competence for potential job opportunities and industry proposals.

Key Qualifications

- *Embraced a flexible, service-minded, and cooperative mindset.*
- *Exhibited proficiency in developing interfaces, prioritizing an elevated customer experience in the face of complex system development challenges.*
- *Gratefully absorbed comprehensive instruction and hands-on experience in design processes, interaction design, and programming.*
- *Proudly acknowledged practical mastery of frontend development skills acquired through tasks aligned with industry requirements.*
- *Demonstrated a genuine understanding of key business principles, with a particular focus on optimizing workflow, incorporating automation, and ensuring efficiency in*

day-to-day tasks for the delivery of final products.

Technical Expertise

- *Creative Design: Applied design principles for effective visual communication.*
 - *Frontend Development: Proficient in HTML/CSS for crafting responsive and user-friendly web interfaces.*
 - *Project Execution: Successfully implemented projects using efficient methodologies.*
 - *JavaScript Proficiency: Acquired skills in both fundamental and advanced concepts.*
 - *Workflow Optimization: Improved project workflows for enhanced efficiency.*
-

Language

- *Norwegian*
 - *English - Speaking fluently and have very good reading and writing skills*
-
